

Air Mover 4000

Volume Energy

Specification Overview

Energy Management

A well placed air mover is as valuable as adding another heater. Designed for limitless placement ability.

Portable Air Power

Easy to manage and place at 36 lbs. Designed to create large volumes of air movement at 4000 CFM.

Creating an Air Vortex

The Air Mover 4000 eliminates air stratification. Penetrates air with hard to vent locations.

Rugged and built for heat treatments

Designed to take a beating in the harsh environment of high heat air movement. Guaranteed.

Daisy chain outlet built-in

Connect your air movers in series or individually. Each outlet has a GFI breaker.

Stackable for convenient transportation

Heavy duty rubber tie-down mounts on each Air mover joins multiple units together for easy transportation handling.

Air Mover 3500

Designed as a key part of the GreenTech Heat methodology. Built for heat treatment environments.

Air power	4000 CFM
Volt	120 v
Daisy chain	Yes
